Agriculture, Health, Cattle development, Sanitation, Education and Awareness,

ACTIVITIES OF PALLI SEVA

Agriculture :

PALLI SEVA conducted farmers' capacity building trainings in the watershed areas of R.Udayagiri, Rayagada, Nuagada, Gosani and Mohana Blocks of Gajapati District under RKVY and NWDPR schemes with the support of SOIL CONSERVATION Department, Paralakhemundi.

During the training programmes the resources persons of Agriculture Department discussed about the principles crops like paddy, Maize, Ragi, Pulses, Sugar cane, Vegetables etc, the other resource persons discussed about the Livestock, pisciculture, Horticulture, Soil Testing and Organic Fertilizer sources And different Agriculture schemes i.e. Irrigation based schemes like Dug well scheme, Bore well, Peddler Water Lifting Unit (Krishaka Bandhu), Pani Panchayath management in L.I., they also aware the farmers on schemes of KSK for income generation programme like Mushroom Cultivation, Dairy, Poluty, Goatary, Tractor, Power tiller, Agro Service centre etc. then after the resource persons explain about the Varmicompost pits and other schemes. By theses training programmes were been benefited to 405 members of farmers

It is also one of the activity focusing by PALLI SEVA with support of the Agriculture Department. That Block Green Revaluation of Eastern India (*B.G.R.E.I*) Under the scheme of R.K.V.Y, At MadhuSudhanPur (M.S.Pur) Gram Panchayat of Gosani Block, In the area of 200 Hundred (HQ) it was also decided that the department will procure the inputs required for the demonstration and will ensure supply of the inputs at Block Head quarters in time. The project aims at improving production and productivity of rice, reduce the gap between the actual and potential productivity of rice in the district by the 50% leading to the average increase of above 0.5 tons per Hectare of crops yield of rice.

PROMOTION OF FARMERS CLUB

Promotion of Farmers club :

PALLI SEVA Formed number of farmers clubs with the supported of NABARD, the aims of the NABARD farmers clubs promoted for introduction of different new methods of agriculture implementation of modern agriculture equipments for improve their production, tie up with bank activities related to agriculture , create saving habits among the people and etc.

Health:

PALLISEVA also got a project from **District TB society (RNTCP)** for to the sputum collection and transportation from the patients of inaccessible areas of Gumma, Rayagada, Gosani and Rayagada Blocks of Gajapati District. During the project period we collect the sputum of the suspected cases and after testing we refer to the patient the nearest health center for treatment. By the impact of this programme community were urged to be vigilant and contact the nearest health center in any suspected case of TB and our organization has been giving training to its field staff to disseminate the information and sensitize the women group member, PRI member and other stakeholders to control the TB During the year.

PALLI SEVA conducted different awareness programmes against The HIV/AIDS disease and conducted the good quality health camps on different disease in the field area.

ANIMAL HEALTH CAMPS

PALLI SEVA conducted animal health camps in the RKVY and NWDPRA watershed areas by the supported of SOIL CONSERVATION DEPARTMENT, GAJAPATI. In these animal health camps are implemented at Mohan, R.Udayagiri, Rayagada, Nuagada, Gumma and Gosani Blocks of Gajapati district. The Animal Health Camps are will be conduct by the organisation with capable Doctors who are expertise in the concerned subject. After the animal health camps we controlled the disease of animals.

SANITATION :

Individual health and hygiene is largely dependent on adequate availability of drinking water and proper sanitation. There is , therefore a direct relationship between water, sanitation and health, Consumption of usage drinking water, improper disposal of human excreta, improper environmental sanitation and lack of personal and food hygiene have been major causes of many disease in developing countries ., India is no exception to this prevailing high infant mortality rate is also largely attributed to poor sanitation.

The concept of sanitation was earlier limited to disposal of human excreta by cess pools, open ditches, pit latrines, bucket system etc. today it connotes a comprehensive concept, which includes liquids and solid waste disposal. Food hygiene personal domestic as well as environmental hygiene, proper sanitation is important not only from the general health point of view but it has a vital role to play in our individual and social life too. Sanitation is one of the basic determinates of quality of life and human development index. Good sanitary practices prevent contamination of water and soil and thereby prevent diseases. the concept of sanitation was, therefore, expanded to include personal hygiene, home sanitation safe water, garbage disposal, excreta disposal and waste water disposal.

PROMOTION OF LIBRARY:

PALLI SEVA started a library at M.N.Peta village for the welfare of un employed youth and public of M.S.Pur and Bommika Gram Panchayats and distributed different valuable information and daily news papers to the Library by pALLI SEVA with own sources of funds and donations collected from like minded people.

WOMEN EMPOWERMENT:

PALLI SEVA women empowerment means “the capacity of the women to take decisions at the family and community level”. Thus the organization consciously focuses on women's empowerment by integrating gender and the increased participation of women into all programmes and development process. At the community level gender sensitization, capacity building and institution building of women are regular held to create a society where women can actively participate in their communities, to challenge stigmas and lead a dignified life.

PALLI SEVA formation no of SHG in the operational area and conducted different training programmes to the SHG members, strengthened by PALLI SEVA strives to empower local women by providing an opportunity for them to have access and control over their resources, in an encouraging and supportive environment And SHG links with Banks for by taking loans for able to take up seasonal business such as rice cultivation, fish, vegetable vending, petty trading and crafts etc. PALLI SEVA conducted capacity building training to the SHG members in the watershed areas of Gosani, R.Udaygiri and Rayagada Blocks of Gajapati District with the support of SOIL CONSERVATION DEPTT, PARLAKHMUNDI, GAJAPATI.
